LETTER FROM THE BOARD

Reasons for the Capitalization of Reserve and the Profit Distribution

Based on the positive expectations on the future development of the Company, and with reference to the operating results and the overall financial status of the Company, the Board proposed the Capitalization of Reserve and the Profit Distribution so as to share the fruitful result of the Company's business performance with the Shareholders.

In addition, to encourage the Shareholders to continue to support the Company's future development, the Board believes that the Capitalization of Reserve will allow the Shareholders to enjoy a pro-rata increase in the number of Shares held by them in the Company without incurring any significant costs to them. Although the Capitalization of Reserve is not expected to increase the Shareholders' proportionate equity interests in the Company, the Capitalization of Reserve will increase the number of Shares to be held by the Shareholders, which will afford the Shareholders with more flexibility in managing their own investment portfolios such as giving them more convenience in disposing of a portion of the Shares for cash return. The Capitalization of Reserve will also result in the increase of number of Shares in issue, and the number of Shares held by H Shareholders, which will motivate the trading of Shares by the H Shareholders, and thus will enhance the trading activities and liquidity of the Shares in the market.
